Intelligent Car Manager

With our Intelligent Car Manager installed in your car, you can remotely monitor and control your car with your mobile phone!

If someone breaks into your car, the Intelligent Car Manager will call your phone. When you receive the message, you can speak and warn the intruder, through your mobile phone, no matter where you are. You can even cut the power / petroleum with your mobile phone, so that the intruder cannot drive your car.

Our Intelligent Car Manager also enables you to monitor everything in the car through via mobile phone, no matter where you are. In fact, you can even monitor what the occupants of your car are saying.

The Intelligent Car Manager can be installed in virtually any vehicle. The unit can call and send SMS alarms to a cell phone warning of an intruder's entry. It also comes with an internal speaker, through which you can verbally warn the intruder to get out of your car.

TURN ON/OFF YOUR ENGINE REMOTELY FROM ANYWHERE AROUND THE WORLD WITH YOUR PHONE

The applications for the Intelligent Car Manager are endless; imagine switching on your car a/c, locking and unlocking your car doors, rolling the windows up and down, immobilize the car in the event of theft or unauthorised use, activating the siren, etc. all with a simple phone call or SMS.

All this can be done with a simple click of a button, to ensure that you have total peace of mind!
